

Buffalo has been proudly serving the Paint, Industrial, MRO, Marine and Automotive Industries since 1929.

Buffalo is far more than your local “rag supplier”. We offer a full line of sorbents and spill kits, select PPE, packaged towels and sundries in both bulk and retail-packed options.

Supported by well over 120 representatives nationally, we have feet on the ground to support our large national and local customer bases to assist in answering any questions about our wide line of products.

Contact us to find out what a real “partner for cleaning and maintenance products” feels like.
